

Educational Research Project Title

Author name, Degree, Title, Affiliation

Background and Context

- Literature Review
- Context of your study
- Significance of the topic
- Tips: Use short phrases; use bullet points
- Relevant background literature
- Project Objectives

Research Purposes & Questions

- Research question(s)

Program/Course Design

- Theoretical framework
- Description of program or course presented

Research Methods

- Research design
- Participants: Demographic (gender, etc.)
- Data collection (quantitative & qualitative)
- Data analysis

Findings

- Helpful to maintain same order as hypotheses / aims
- What outcomes did you measure?

Discussion and Conclusion

- Implication of your findings
- Limitations of current study data set and/or analysis
- Limitations of conclusions or generalized application of conclusions

Next Steps / Future Directions

- Address limitations previously cited
- What should the next studies look like?

References

- Literature or other references guiding the study design and/or informing discussion & conclusions

Acknowledgements

- Funding source(s) and other material support
- Critical guidance
