BNGAP PREFAC Academic Career Development Seminar for College/Post-Bacc Trainees

May 1, 2021

A seminar offering nine workshops focusing on:

• Exploring how research, educational and service work not only makes you competitive for graduate school (medical, dentistry, nursing) but also helps you build a foundation for an academic career;

• Describing how to transform research, educational and service work to scholarship to enhance your competitiveness for graduate school;

• Developing and enhancing your portfolio to be a more competitive applicant to health professional graduate school and academia;

• Expanding your network of graduate school faculty and role models.
